

Have you been affected by lung cancer?

North East London Cancer Alliance are looking for North East London residents to join their **Targeted Lung Health Check Delivery Group**

We are looking for people affected by lung cancer who would like to share their experiences and views with healthcare workers.

Do you have any thoughts or suggestions about your screening test experience?
What went well or what could have been better?

What will it involve?

Joining an online one-hour meeting. The meetings take place virtually on **Microsoft Teams every last Tuesday of the month** between **12:30-13:30**. We estimate one hour will be needed in-between meetings to read papers to understand and help discuss key issues. It may also involve providing feedback on future plans and materials via email.

We are keen to hear from people from all sections of our diverse community, regardless of age, disability, ethnicity, gender, LGBTQ+ identity, race, or religion. Please let us know if you would like to discuss any reasonable adjustments to any part of the process.

For more information and to express an interest in joining, please contact:
