PROSTATE CANCER IT'S NOT A GAME.

If you're a man over 40, check out these symptoms:

- PEEING MORE OFTEN
- NIGHTLY TOILET TRIPS
- DIFFICULTY PEEING
- A CHANGE IN YOUR FLOW

SOUND FAMILIAR?

Then you should take a PSA test. Chances are it's not prostate cancer but it's always best to know for sure.

More than 140 men are diagnosed with prostate cancer every day. When diagnosed early, nearly 100% of men survive.
